

Bioetica. Una rivoluzione postmoderna - Bioethics is the great cultural revolution of post-modernity. While medical progress opens new perspectives for the physical wellness, the psychological well-being has emerged as a fundamental human right. But at the same time it originates a new issue in the need to reconcile the interests of society with the freedom of self-determination of the individual. Hence, a sum of questions, hypotheses, and instances that require an attempt to focus.

Francesco Paolo Casavola - Is jurist, historian of Roman law, judge. Since 2006 he has been Chairman of the National Committee for Bioethics at the Presidency of the Council of Ministers.
